RISK RATING

COMMENTARY

SIFT's assets grew 39% year-on-year to end the first quarter of 2022 at Ghs637M. Net cash flows and earnings contributed 53% and 47% respectively to the growth.

The Fund ended the quarter with 81% of its assets invested in bonds, 15% invested in money market securities with cash and near-cash making about 4% of the total fund size.

SIFT's 12-month return as at Q1-2022 was 18.07% compared to the benchmark of 16.92%.

The Fund's strategy for the next quarters, is to continue to take positions in high yielding securities on both the primary and secondary markets to grow Fund returns.

INVESTMENT POLICY AND OBJECTIVES

The Stanbic Income Fund Trust ("SIFT" or "the Fund") is an open-ended unit trust fund. The primary objective of the Fund is to seek medium to long-term sustainable income and capital appreciation of its assets. It does this by investing in a portfolio of fixed income securities including government treasury securities, fixed deposits and other corporate debt securities.

Up to 85% of assets under management are invested in medium to long-term corporate and government debt securities while retaining a maximum of 40% in money market securities and a minimum of 3% in cash.

DISTRIBUTION

SIFT does not distribute earnings. All earnings are reinvested in the Fund which impacts the net asset value of the Fund.

Investors seeking to withdraw earnings will have to sell part of their units to realize their earnings.
